RE: CSO #13- Community Conversation

Dear Resident/Property Owner:

As the plans for the Combined Sewer Overflow (CSO) Project continue to develop, we once again would like to invite you to participate in an informational meeting and presentation of the project on Wednesday, November 18, 2020 at 5:30 PM by way of a live Lebanon virtual meeting.

Representatives from the City's Department of Public Works and consultant Wright-Peirce will be presenting to give a short overview of the design of the streets within the CSO#13 area (A portion of 12A from Waterman Ave., to #67 South Main Street, Romano Place and some cross-country areas in the Romano Place Development.) The plans to be presented are currently at the 90 percent design level and are a combination of engineering infrastructure improvements and the concerns, ideas and suggestions received at prior neighborhood meetings, along with comments from City boards/committees, utilities and departments.

The 90% plans will be available on the City's website <https://lebanonnh.gov/1338/cso-project-no-13> beginning November 18, 2020.

Public participation is always encouraged and appreciated. We hope that you and your neighbors will attend the meeting on November 18, 2020 as your input is very important and highly desired as we work to finalize the plans for construction. Members of City Council will also be invited and encouraged to attend.

To attend the meeting go to the City's website and on the front page of lebanonnh.gov. Go to **Access Lebanon Live meetings**. Join the meeting by computer or phone.

The number to dial in is 1-929-229-5356 and the conference id is 977 552 132#

If you have any questions, please feel free to contact Christina Hall, City Engineer at 448-3112 x 6146

Sincerely,

DocuSigned by:
